Please follow this link <http://jroth4.home.comcast.net> to see the small website established to:

- 1) Inform owners of the recent dog problem and let them know about the committee established to address the problem.
- 2) Recruit owners to participate in the committee's work.
- 3) Solicit comments from owners who have suggestions for dealing with the dog problem.
- 4) Display owners' suggestions.
- 5) Display committee discussion.
- 6) Eventually publish the committee's recommendations to the BOD.

I'll be announcing this website to all owners by email and by US Mail in the next general mailing to owners - approx September 1, 2009. My intention is to begin email contact within the next few days. Since this project has been initiated by and on behalf of the 9400 BOD, I wanted to give you a "heads up" prior to the initial publication. Please let me know quickly if you have any objections.

As I mentioned at the July 25 BOD meeting, my intention is to try to publish all comments from owners and much of the committee discussion related to this project. I expect discussion to be relatively transparent so that all interested owners will be able to follow our progress. If we're able to accomplish the goal of transparency, our final product should not be a surprise to anyone.

JR
