Margot - Please note the communication that came from the BOD several weeks after the original BOD resolution. It outlines responsibilities in excess of their original agreement.

You may recall that when you asked for the BOD resolution, I sent you the resolution and then included a comment that we had eventually reached a contentious agreement on the committee's task.

I can tell for sure that we did not all agree with your assertion that the by-laws allow anything other than small dogs. I certainly did not. I'm not sure anyone else said they agree.

If you choose not to comment on or contribute to the the draft recommendation, I'll be disappointed but will continue working on it. Please reconsider. Also, please let me know whether you would like me to indicate in the recommendation that you are not in agreement. I guess you can write a separate recommendation on your own if you so choose.

JR
