I've attached a cleaned up version of my proposed Pet Committee recommendation. I'd like to wrap this up by November 1, if possible, so please let me have your comments ASAP so we can modify the proposal as needed. Please also recognize that the Beruls will be away for a couple weeks and that we will wait for their input, upon return, before offering our proposal.

If we can't eventually agree on a recommendation, I suggest that one committee member should write a dissenting opinion to be submitted to the BOD at the same time this (modified) proposal is submitted.

Please note that I haven't copied Judi Segermark on this email. Judi has apparently offered her own recommendation to the BOD.

Awaiting your comments.
