John - Here's a word from one member of the BOD- I'm trying to stay abreast of the work, and comments, of your Committee. Once our holiday period is passed, I trust that my reading of your "small web site" can be on a more timely basis. I would much appreciate it, if your personal contacts might continue until we get back to Colorado and a far less demanding schedule.

Please extend my personal thanks to everyone who has joined your committee, as well as those people who have taken the time to share their thoughts with all of us. As I stated, in my note to the BOD at the September meeting, you are to be complimented on your achievement - you have started a dialogue in 9400. If you were to accomplish nothing else, you have done what we thought might be undoable...Thanks, John Roth, and thanks to all who have made the effort to be a part of this challenging task.... Grayce Cohen, 2107
